Objective

To enhance my professional skills, capabilities, and knowledge in an organization that recognizes the value of hard work and trusts me with responsibilities and challenges. I aim to contribute effectively to the team's success while continuously learning and adapting to new technologies and methodologies. My goal is to grow both personally and professionally, taking on diverse projects that push my limits and allow me to make a meaningful impact.

Education

- **JECRC UNIVERSITY**   2021-2025
  Bachelor of Technology(Computer Science)
  93%

Skills

- Problem Solving skills
- Proficient in Java
- Python
- MySQL
- Spring

Projects

- **Next Word Predictor**
  * A NLP Model which predicts the most likely word to follow a given sequence of words or context.
  * It aims to generate coherent and contextually relevant suggestions for the next word based on the patterns and relationships learned from training data.
- **ATM Stimulator System**
  * Created an ATM Simulator System using Java GUI, providing a user-friendly interface for simulating ATM transactions such as withdrawals, deposits, balance inquiries, and fund transfers.
  * This project demonstrates proficiency in Java programming and other concepts like Swing, AWT, GUI design, and implementing essential banking functionalities.

Strengths

- Eager to learn and Explore
- Positive Attitude
- Confident
- Adaptability

Certification

- Participated in ju spark
